## HIGH LIVERS.

The Loftiest Altitudes inhabited by Human Beings.

The highest spot on the globe inhabited by human beings is the Buddhist cloister of Havis, Tibet, where twenty-one priests live at an altitude of 16,000 feet. The monks of St. Bernard, whose monastery is 8,177 feet high, are obliged to descend frequently to the valleys below in order to obtain relief from the asthma induced by the rarity of the atmosphere about their mountain eyrie. At the end of ten years' service in the monastery they are compelled to change their level.

When the brother Schlaginwell explored the glaciers of the Iba Gamin, in Tibet, they once encamped at 21,000 feet—the highest altitude at which a European ever passed the night. At the top of Mount Blanc, 15,781 feet above the level of the sea, Professor Tyndall spent a night, and with less discomfort than his guide, who found it very unpleasant.

In July, 1872, Mr. Glaisher and Mr. Coxwell ascended in a balloon to the enormous height of 38,000 feet. Before starting Mr. Glaisher's pulse beat 70 strokes per minute, and Mr. Coxwell's 74. At 17,000 feet Mr. Glaisher's pulse had increased to 84, and Mr. Coxwell's to 100. At 19,000 feet the hands and lips of the aeronauts turned quite blue. At 26,000 feet Mr. Glaisher could hear his heart beat, and his breathing became oppressed. At 29,000 feet he became senseless, notwithstanding which he still ascended another 9,000 feet, when his hands were paralyzed and he had to open the valve with his teeth. In the Alps, at the height of 13,500 feet, climbers suffer from the rarity of the air, yet in the Andes persons can dwell, as at Potosi, at a height of from 13,000 to 15,000 feet without inconvenience.

Strange Story of a Murder in Prison.

New York World.

CLEARFIELD, Pa., April 9.—On Thursday last a man named Goodwin was arrested for larceny and lodged in the jail at this place. Last night a man and woman, representing themselves to be the brother and sister of the prisoner, drove to the jail and were admitted to Goodwin's cell. After they had left Goodwin was found dead from wounds inflicted with a knife.

At the instant to-day it appeared that Goodwin was killed by a fellow-prisoner named Evans. The woman is Kate Sample, a dissolute woman of the oil and coal regions. She was acquainted with Evans, who was convicted of manslaughter recently, and has another indictment pending against him. The jailor permitted the victim and the woman to visit Evans' cell. The two men then quarreled about her, and Evans stabbed Goodwin through the heart. The knife covered with blood has been found in Evans' cell. Goodwin's brother has been discharged, but the woman is held as an accessory.

The Lost Found.

Our readers will remember the circumstances of the robbing of the Sierra Valley stage last winter, during the time that there was so much snow on the ground and the subsequent unsuccessful efforts to capture the robbers. Now comes the strange part of the story. Several days ago while the stage was on its way to Truckee a passenger commenced to talk with the driver about the robbery. When the stage arrived at the spot where the robbery was committed, the driver stopped to show the passenger more particularly how the thing occurred and both of them got out on the ground; while thus engaged the passenger turned over a large stone near the side of the road, when lo! and behold! there was the driver's watch, which had been taken from him several months ago. Search was also made for the money (amounting to about \$1,000), taken at the same time but no trace of it could be found. The driver, of course, was glad to get his watch back, but he would have been much better pleased if he got the money back too.

Death of the Mammoth Queen.

DETROIT, April 9.—Mrs. Charles Ballou of Saranac, in this State, known as the Mammoth Queen, died yesterday. Her weight when she was stated to be 575 pounds. Her weight before death was 400 pounds. The casket containing the body was 6½ feet long, 3 feet wide and 20 inches deep.

"What's in a name, did ye say, Sawney? Veera leetle, I ken weel. Didna I gang ta the Caladony mine the day and tell the chiel in charge there that I was a Scot and I thought they should pit me on theray and didna he ca' me a dam fool and tell me to gang to hell?"

Small dishes are decorated so hand-somely now that pickles look unhappy in them.—Boston Globe.

## MISCELLANEOUS.

San Francisco, Feb. 9, 1881.

Report of the Bank Commissioners for the State of California to the Hon. A. L. Hart, Attorney General:

Dear Sir: In compliance with law, we beg to report that we have examined the affairs of the Pacific Bank, and to submit the following statement of its condition.

Very respectfully, your obedient servants,

EVAN J. COLEMAN, Bank Commissioner.

ROBERT WATT, for State of California.

Resources.

## INSURANCE! INSURANCE!!

THE ATTENTION OF THE PUBLIC IS CALLED to the following notices from the April number of the "Coast Review," the recognized authority on insurance on this coast, of the Insurance Companies represented by the Agency of Jacobs & Easton, and for which

W. N. Knox is Agent for Reno:

THE TRADERS' INSURANCE COMPANY IS A CONSERVATIVE, well-managed company. The assets, of nearly one million dollars, consist of the two best securities—being principally United States bonds. The original capital of \$600,000, in United States bonds, has never been touched since the organization of the company. The losses paid to date aggregate \$1,700,000, and the surplus to policy holders is \$78,000.

THE GLEN FALLS INSURANCE COMPANY IS BETTER KNOWN AS "OLD & TRIED." It has had a remarkable history of prosperity, its assets growing to \$250,492.73, and a surplus to policy holders of \$64,071.53. The stock of the company has a book value of \$323,004 for every hundred dollars, which brings the Buffalo-German fourth on the list of all American companies.

THE UNION INSURANCE COMPANY WAS INCORPORATED IN 1804, and since that time has paid out in losses more than \$1,000,000. The assets of the company are about \$300,000, with a surplus to policy holders of \$60,000. This company has lately moved into their new and elegant building, the present large quarters being necessary for the transaction of their increased business.

THE ROCHESTER GENERAL INSURANCE COMPANY IS A WELL MANAGED INSURANCE COMPANY, WRITING SMALL LINES AND MAKING HASTE SLOWLY. It has assets of nearly a half million dollars, and a handsome surplus beyond its capital. Since its organization it has made steady progress, adding yearly to its assets, as well as to its surplus.

THE SHOT & LEATHER INSURANCE COMPANY IS ONE OF THE OLDEST COMPANIES. The assets of the company, January 1st, 1881, amounted to \$309,329.14, and the surplus to policy holders \$387,245.54. Always prompt and honorable in paying off losses, this company has earned an enviable reputation.

THE ORIENT INSURANCE CO., OF HARTFORD, IS WELL KNOWN TO THE INSURING PUBLIC, HAVING DONE BUSINESS ON THIS COAST SOME YEARS AGO. The company has withdrawn from the field, owing to many reasons, and its assets are returned to us, amounting to \$653,581.07, and the surplus \$692,481.07.

### DEMOCRATIC LEGISLATION.

The New York *Nation* is not in love with Democratic legislators. According to that paper it was curiously characteristic of Democratic attempts at legislation that the party should have closed its six years possession of Congress by bringing about a panic in the stock market through an effort to improve the credit of the Government.

As soon as they had completed their plan for enabling the Government to borrow at three per cent., interest rose in the New York market to 47½ per cent.

If it were not for all the damage that was done by this, it would be very ludicrous. We ventured to guess, last week, that Mr. Carlisle, the author of the fifth section of the Funding Bill, would defend himself by saying that "it would have worked well if the bankers had not been such bad men." Sure enough this is what he did say on Wednesday, just after we had gone to press. "He took that occasion to say that the national banks, by their conduct during the last week, by the gross abuse of that great power which the bill passed," that evening would take away from them forever, had done more to arouse a spirit of just indignation in the bosoms of the American people, etc., etc. (Applause on the Democratic side.)

It must be remembered that the "gross abuse of the great power" consisted in a number of private citizens making preparations to take their savings out of a business which seemed likely to be made unprofitable by hostile and perfidious legislation concocted by Mr. Carlisle and his associates.

The banks that were frightened into returning their notes, now that the scare is over would like to get them back again, but the prevailing legal opinion seems to be that they can only do this by going through the formalities attendant on the establishment of a new bank, which takes about three months.

### EDITORIAL NOTES.

State Treasurer Crockett says he has, through the aid of the valuable assistance of Gov. Kinkead, sold \$50,000 of California 6 per cent. bonds placed in the State Interest and Sinking Fund for the purpose of redeeming our State bonds which fell due April 1st, 1881; that he received a premium on said bonds of 4.60 per cent., including one-quarter's interest thereon. He has also succeeded in redeeming all our outstanding bonds, amounting to \$56,400, excepting \$100, which had not been presented. This \$100, therefore, is the sum total of the present indebtedness of the State, excepting what is due to its own School Fund.

On the first of this month there was \$168,347 58 in coin in the Treasury, aside from \$100,000 in U. S. 4 per cent. bonds.

The receipts for the month of March from sale of State lands were: principal, \$5,323 18; interest on same, \$1,629 04; from State prison labor, 1,235 10; total receipts, \$8,096 32. The sales of land are increasing. On the 6th instant alone \$2,540 were paid in.

Boston Sunday-school magazine, the *Monthly Cabinet*, tells about a young man newly-married, who applied for sittings for himself and wife in a church near his residence. His salary was \$1,500 a year, and he had made up his mind that he could not afford to pay more than \$2 per Sunday for pew rents. On inquiry, he was told that the rent of a desirable pew in the rear half of the house was \$300; and "we don't split up the pews," was added superciliously. The day when Sunday-school magazines will begin to improve has been looked for anxiously for one hundred years.

### Specimen Book.

We have received from Marder, Luse & Co., of the Chicago Type Foundry at San Francisco, a revised edition of their specimen book of types, presses, etc. It is gotten up in a very convenient form for use, and is in itself a handsome specimen of the art preservative. It will be found of great value in making selections, and we recommend it to the trade.

The Stars and Stripes are respected by the worst of savages. When the fierce mountains Kurds laid siege to Oromoah, their leaders sent word to the missionaries to raise the American flag over their dwellings, so that they might be saved from danger by his troops. The flag was a power in this case, simply as a sign to the troops that Christian missionaries were there

and were to be protected, and they were spared amid merciless slaughter all around.

## BY TELEGRAPH.

### Crop Prospects.

WASHINGTON, April 16.

Reports to April 1st received at the department of Agriculture show an increase of nearly four per cent. in areas of winter sown wheat, Kansas and Missouri show the largest increase, Ohio and Illinois but slight, and New York and Pennsylvania remain the same as last year. Indiana, Kentucky, Tennessee and Virginia each report some decrease, owing to the prevalence of snow. At the date of returns the condition of the crop was not given in large proportions to the principle wheat-growing States, but wherever mentioned it was stated as below that of the average year. The alternate freezing and thawing during the month of March was more detrimental than all the weather during winter. The live stock of the country, notwithstanding the scarcity of food and provender, caused by a long and severe winter, has come out in fair health, though it is reported very low in flesh. No malignant or prevailing disease is reported over any large extent of country, though local disorders of lungs and stomach are often mentioned. Great losses from cold and exposure are reported from the plains far out west.

Puck has rather an irreverent way of treating the subject. But the Czar is gone and that is all there is to say. How do you please Fujiman? His missionary take? Or toast or frizzled in a pan? Or else him doth he break. How takes ye gentle Nihilist? His Czar he loves so well? He peppers him if he resist, Or takes him on the shell.

They are holding John Brown meetings at San Jose and subscription lists are open in San Francisco. The beneficiary is Mrs. John Brown, widow of the late John. The payment of a mortgage on Mrs. Brown's property seems a pleasant and proper manner of acknowledging the bravery of the dead agitator.

A Missing Frigie.  
SPECIAL TO THE GAZETTE.

SAN FRANCISCO, April 18.

A Washington D. C. dispatch says that the U. S. Frigate constitution left League Island ten days ago and has not been heard from since. Some apprehensions are felt for her safety as it is said that she was imperfectly manned and doubts have been expressed of her sea worthiness.

### PACIFIC COAST NEWS.

A.C. Pratt proposes to start a paper at Hawthorne.

Walt J. Tusk of Storey is attending to legal business at Eureka.

The Sulphur Bank Quicksilver Mining Company of Lake county, Cal., advertises for experienced miners. They offer \$3 per day.

Ex-Governor Pacheco and Colonel Lewis, of California, are in the City of Mexico, in the interest of the Topolampa Railroad.

The saw-mills of the Carson and Tahoe Lumber and Fluming Company will begin their season's work next week.

The Wyandotte Company of Tem Pahute have paid claims here amounting to some \$7,000, at the rate of eighty cents on the dollar.

A. Livingstone of Genoa, had fifty pounds of ore, taken from a mine near Genoa, worked on Tuesday, which yielded \$13 in gold and \$1 34 in copper.

Mr. R. D. Cameron, an enterprising woodman, has a drove of several thousand cords of wood in the Carson river, a portion of which has reached Dayton.

#### Sierra Hoppers.

Dave Newman, of Sierra valley, sees by the GAZETTE that an opinion has gone abroad to the effect that there will be no grasshoppers in the valley. Mr. Newman scours the idea as unworthy of belief. He says that there are millions of eggs and a "snap" in each egg. Eggs that will snap will hatch, hence grasshoppers are a dead moral certainty. The natural enemies of the pest are also out in strong force and this furnishes consolation to the farmer. The Sierra valley ranchers are putting in a larger area of grain than ever, and Mr. Newman thinks they will have a splendid season barring the hoppers.

#### A Capable Judge.

RENO, NEV., April 18, 1881.

Editor Gazette:—DEAR SIR, Having head so much regarding the treatment of the children in the Orphans' Home at Carson, and having three children of my own there, I came from Eureka to see them, and found them well and well taken care of. They have been there one year, and have always been kindly treated. My oldest daughter is 14 years old, and is able to judge. She is well treated and satisfied.

Yours truly, Mrs. A. BARKER.

#### JOTTINGS.

The picnic season is coming. Yum, yum.

Constable Avery advertises a sale in the 50-cent column.

Henry Ruhe is renovating his building on Commercial Row.

Geo. Becker received to-day 28 kegs of Sacramento Bock Beer.

How can a man go to Steamboat for a bath and not touch water!

Assessments were delinquent to-day on Best & Belcher, Overman and Mono.

S. Upson, who lives on A. J. Clark's ranch, rejoices in an Easter baby.

The Daily Nugget announces the arrival at Tombstone, Arizona, of Tom Fitch and wife.

G. W. Mershon will close the Ocean Spray saloon to-morrow on account of dull times.

Dave Wheeler is moving his sheep. He drove a band through town on Saturday.

A car load of Chinamen went east on the overland Saturday night bound for Boston. There were 48 of them.

Ex-Congressman Wren and ex-Senator Stewart are pitted against each other in the Albion-Richmond suit at Eureka.

Nashy has a very handsome colored photograph of Miss Neilson on his counter. It was painted by a Reno Miss of fifteen.

The Eureka mine of Plumas county is one of the best paying properties on the Coast. Mr. Yates, a contractor under the Company for five years goes to Eureka to night.

A stranger walked into a grocery store to-day and applied for \$1,000 worth of credit. He had no security or collateral but made the move solely on the strength of a fine spring suit which he had purchased at the White House.

Simpson came by way of Kelton, and passed over 200 men trudging along towards the promised land carrying their blankets.

Charlie Behrman, who used to keep the Arcade restaurant, will soon open a large saloon and lodging house in Bellevue.

Mason valley farmers are beginning to find a market for their hay at Walker Lake. Several hundred tons have already been sold.

The Mason valley Good Templars have purchased a new organ, and expect therewith to gain many recruits from the haunts of intemperance.

Property is not held at very high rates in Bellevue owing to the establishment of a rival town, Marshall, four miles away.

Men going to Wood River will not find twenty-dollar pieces in the road, or sacks of flour on the trees.

I am a very hard, rough man when started. I am a big man and a good man, but I am not as large as I look because I've got lots of clothes on. I don't put on airs over anybody except when I feel mean, and then I like policemen mostly. I am not feeling well to-day.

Police Brown who happened to be present said: "I have no doubt that you are a good man and a strong man, but you mustn't like me to-day."

"I'll give you what I make in Wood River this summer if you'll find me a policeman to thump," said the stranger.

"Well," said Brown in his usual quiet and unostentatious manner, "I'll arrest you myself in a holy minute, and don't you forget it, that man don't live who can—"

"Stop, stop," said the stranger turning pale, "let's take a drink. Mr. Brady why didn't you tell me I was talking to an officer?"

The Place to Rest.

The Set Around Club, an organization formed for literary and social pursuits—and perhaps matrimony—held a secret session yesterday for the purpose of receiving a privileged communication from County Surveyor Skinner. Present Messrs Bryant and Bridges. Reading of the minutes dispensed with. No reports of Committees. No unfinished business. No new business.

The Chair—"Mr. Skinner you are in order."

Skinner—"What is the difference between Scott Lake, when he is putting that pine bark in the stove, and Bailey there? I pause for a reply.

No? Well, one is a bark-keeper and the other is a bark-heaper."

The Chair—"Let the usual order be made."

Reno Represented.

The GAZETTE feared that Reno was entirely lost sight of at the late bench Show in San Francisco. Charles A. Clark, engineer on the lightning train between Reno and Sacramento exhibited an Irish setter bitch with as clear a pedigree as any dog in the country can show. In her veins flows the blood of some of the best imported stock in the East, her sire and dam both coming from champion prize winners. She is probably the best bred Irish setter on the Coast, but because she was not the property of a Major, General, Colonel, or some other dignitary, she was refused a

Easter Services.

The churches were crowded yesterday by the good people who were devotionally inclined, and those sin-laden persons who always have good clothes to show. The churches were handsomely decorated, and the programmes were exceptionally good. The choirs were strengthened by volunteer talent, and the music was very enjoyable.

Justice Court.

In the case of Reno Water Co. vs. Lee and Leete, a stay of execution was granted for ten days.

The case of John Lee, executor, vs. Monroe Brothers was on trial during the day, before a jury.

Entire Stock at Great Sacrifices.

Remember the Place,

I. BARNETT'S,

Cor. COMMERCIAL ROW & VIRGINIA ST., RENO

#### PERSONAL.

U. S. Marshal Ash was on the streets to-day.

Col A. C. Ellis is in Reno on legal business.

M. Nathan went to San Francisco this morning for new goods.
